Santo André — SP, Brazil

(01) — PROFILE

Computer Science student at UNINTER focused on software development, Front-End and data analysis. I build applications in Python and C#, work with databases and network data, and create responsive web interfaces. I complement my technical profile with Power BI and UI/UX Design to deliver functional, well-designed solutions, and I use AI and AI tools to boost productivity and speed up learning. I am looking for my first opportunity in tech to grow with a team and contribute to real projects.

(02) — PROJECTS

Interactive personal portfolio 2026

React · TypeScript · Three.js · UI/UX

- One-page website with a 3D scene, light/dark theme, PT/EN versions and a focus on accessibility and performance.
- Interactive lab: Python programs, SQL queries, a dashboard with CSV upload, design tokens with WCAG contrast and sorting algorithms.

Python & C# applications

Python · C# · SQL · Databases

- Database-focused programs: data modeling, storage and querying of information.
- Projects with network data, practicing logic, data structuring and code organization.

Interactive Power BI dashboards

Power BI · Excel · Data analysis · UX

- Dashboards with data treatment, indicators (KPIs) and charts to support decision-making.
- Focus on visual clarity, applying UX principles to data presentation.

Websites & web interfaces

HTML · CSS · JavaScript · Figma

- Responsive websites with HTML, CSS and JavaScript, with layouts and prototypes created in Figma.

(03) — SKILLS

PROGRAMMING

Python · C# · JavaScript · Java · SQL · Logic & algorithms

FRONT-END

HTML5 · CSS3 · React · TypeScript · Responsive design

DATA

Power BI · Excel · Dashboards · Databases · Networking

DESIGN & TOOLS

Figma · UI Design · UX Design · VS Code

ARTIFICIAL INTELLIGENCE

Generative AI · AI tools · AI-assisted development

(04) — LANGUAGES

Portuguese — Native

English — Advanced (C1)

(05) — EDUCATION

Bachelor of Computer Science

2028 EXPECTED

UNINTER · currently in the 3rd semester

(06) — COURSES & CERTIFICATIONS

Power BI — 2026
Impacta · 40 hours

UI/UX Design — 2024
Origamid · 80 hours

HTML, CSS & JavaScript — 2024
Origamid · 46 hours

166 hours of certified coursework

(07) — DIFFERENTIALS

- Programming + data (Power BI) + interface design (UI/UX).
- AI applied to study, development and productivity.
- C1 English for technical docs and communication.
- Continuous learning; open to different areas in tech.
